✠ SUBJECT INDEX ✠

Volume 5 1999

acute care
  patient satisfaction with nursing care 72, 87
  postoperative pain management 216
  quality measurement 72
advocacy
  and burn out 8
A & E *see* emergency department
aged care
  brief report on residential, in Hong Kong 230
aged people
  and chronic pain 78
  and self-efficacy in chronic illness 209
  and self-neglect 58
  functional abilities 78
  in Israel, expectations and roles 51
  in Thailand, social situation 95
  older women's experience of leg ulcers 189
ageism, impact on care 86
anaesthesia
  topical, EMLA® cream use in hospitalized children 21
arthritis
  and self-efficacy in 209
assessment
  health and physical 29
  scale, constipation risk (Clinical Report) 106

Book Reviews 54, 113, 172, 233
Buddhism
  influence on care of aged people in Thailand 95
burn out
  contributing to shortage of experienced nurses 8

cancer
  ovarian, clinical update 47
casemix
  and the affect on health policy (Scholarly Paper) 2
children *see* paediatric
China
  self concept of hospitalized Chinese children with chronic illness 38
chronic illness
  and self concept in hospitalized children in China 38
  and self-efficacy in 209
  older women's experience of leg ulceration 189
Clinical Reports
  a story, nursing-damaged lives 227
  constipation risk assessment scale evaluation 106
  ovarian cancer, an update 47
  telephone nursing 164
community nursing
  history of community midwifery in Finland 116
  pain and distress in older people 78
constipation
  development of a risk assessment scale (Clinical Report) 260
criteria
  of goodness in qualitative research 2
critical care
  moral distress and burn out of nurses in 8

diabetes, Type 1
  and self-efficacy in 209
doctoral education, international
  brief report 230

economic influences
  best practice in changing health-care system in Australia 100
  cut-backs and impact on quality of care 86
  socio-economic changes in Thailand and their effect on aged care 95
Editorial 1, 57, 115, 173
education
  patient, as role of the nurse 14
  nurse, extended role of the nurse in UK 184
elderly *see* aged
emergency department
  and telephone triage 164
ethical dilemmas, advocacy and burn out 8
existential–phenomenological analysis of a paradigm case 174

fall prevention (Editorial) 57
family
  dynamics when a member is hospitalized 155

emotional support for when a member has ovarian cancer 47
issues in home-based care 132

self concept in hospitalized children with chronic illness in China 38
pain
chronic
in older people 78
in older women with leg ulceration 189
in Finnish hospitalized children 21
model for postoperative management of 216
patient classification
and care needs 199
patient outcomes *see* quality
patients' rights
Nordic countries, brief report on advances 230
postmodernism
in qualitative research 2
and patient self-neglect 58
professional issues
clinical competence in New Zealand, brief report 230
psychological distress
associated with chronic pain in older people 78
public health nursing
in Finland 116

qualitative research *see* research, qualitative
quantitative research *see* research, quantitative
quality
caller satisfaction in telephone triage 164
postoperative pain management 216
levels of care, as perceived by patients 86
patient outcomes
measuring from patients' perspective 143
patient satisfaction with nursing care 72
patient satisfaction instrument (La Monica–Oberst) 72
poststructural critique of best practice 100

reflection
in daily nursing practice 227
rehabilitation
setting and nurse attitudes to teaching role 15
research
environment
community 78
custodial 137
rehabilitation hospital 14

therapeutic 68
qualitative studies
descriptive
nurses' health assessment practices 29
older women's experience of leg ulcers 189
patient satisfaction with nursing care 72
patients' perspective of outcomes 143
existential–phenomenological analysis of a paradigm case 174
family issues in home-based care, case study approach 132
fieldwork in custodial environment 137
grounded theory to evaluate nursing care from patient's perspective 86
hermeneutical phenomenology 64
interpretive interactionist study of burn out 8
narrative as text 65
nurses' perceptions of teaching role 15
pain experience of hospitalized children 21
poststructural critique of best practice 100
what constitutes goodness in 2
quantitative studies
cluster analysis of chronic pain in older people 78
content analysis of questionnaire on hospitalization of family member 155
cross-sectional survey of nurses' smoking 147
measuring patient's perceived caring needs 199
patient satisfaction with nursing care 72
self concept of Chinese children with chronic illness 38
telephone advice and caller satisfaction 164
tentative model for postoperative pain management 216
researchers' experiences in the field 137
residential care standards
in Hong Kong, brief report 230

risk assessment
evaluation of a constipation risk scale 106

Sacks, Oliver
existential–phenomenological analysis of 'A Leg to Stand On' 174
self-neglect, patients' 58
smoking behaviour and attitudes, of nurses 147
staffing levels
as a factor in quality care 88
stories
narratives as text for interpretation 64
story-telling as reflection on practice 227
support group
Sweden
